

## More ETS trips during Raya

**KUALA LUMPUR:** The Electric Train Services (ETS) inter-city trips will be increased during the Raya season if there is demand.

KTM Bhd president Dr Aminuddin Adnan said trips between Ipoh and Seremban would continue but the service could be extended subject to customer demand.

"We can have between eight to 10 trains running daily," he told reporters during a familiarisation trip from Ipoh to Kuala Lumpur yesterday.

He said that five trains would depart from Ipoh and Seremban daily. The ETS begins operating today.

There will be 10 trips between Ipoh and Seremban at RM30 for a one-way journey.

Dr Aminuddin said the promotion rate of RM30 one-way could be permanent depending on market demand.

"RM30 is a very competitive price based on the services and travelling speed of the train," he said.

"We will review the price after the six-month promotional period," he added.

Dr Aminuddin also said ETS would launch its online ticketing services next month to attract more customers.

"Customers will get discounts if they book through the Internet," he added.

Perak executive council member Datuk Dr Mah Hang Soon said the new train service would be a boon for the tourism industry.
